Roses and Snow
A Big Secret
Cosmic Stuff
Fewer? But Bigger
By Arthur Brisbane

Copyright, 1927, by Star Co.
PASADENA, CALIF., Jan. 2.—A crowded day in this beautiful city—the Tournament of Roses in the morning; in the afternoon a football battle between East and West, the Pittsburgh University against Stanford University.
More than 75,000 came to see the Rose Tournament; crowds from all over California came to the football game.

Everything is in the United States. Coming down through the Colfax Pass to Pasadena, warm in sunshine, with roses blooming everywhere in the open air, you passed dozens of automobiles going up the Park, carrying skis and toboggan sleds. They were bound for Deer Bear Lake and the mountains, where snow lies five feet deep. Only three hours' motoring separates the Rose Tournament from deep snow.

The London Gazette published inadvertently an admiralty announcement of extra pay for officers in charge of aircraft carried by submarines.

That Britain has submarines equipped with folding aircraft, ready, if necessary, to carry destruction to the enemy's harbors, is a secret no longer.
That secret interests this country. We don't expect war from Britain, but what the British can build others can build.

We spend billions on battleships, little on submarines and airplanes, and our submarines have a way of going down and staying down. Suppose a dozen enemy submarines should slip into the harbor of New York, Boston or San Francisco and Oakland, destroy the floating fighting ships, then release airplanes to raid the city and hold it for ransom.

That is the sort of attack planned when submarines are built to carry fast aircraft.
What effective defense could we offer to such an attack? NONE, except to offer to pay any price for mercy. Our record may read, some day, "Not a cent for defense, but billions 'ye tribute'."

News more important than rose tournament or football game is supplied by Professor L. B. Brown of California's Institute of Technology. He confirms the surmise made by La Placa at the end of

With a vitriolic attack, referring to "political villains who hope to favor their ideas on the 'key' issue," City Councilman Frederick B. Dwyer, Republican, attacked a resolution in the Council chamber today to prevent the election of a new mayor.

NAVY TO LAND JACKIES IN NICARAGUA; WILBUR SENDS MORE MARINES

Washington, Jan. 3 (A.P.)—The battleships of the Navy, totaling 1,000 men, under the command of a Marine general, have been ordered to Nicaragua to participate in a drive against the bandit Somoza. The order was issued today by Secretary Wilbur after he had conferred with President Coolidge at the White House.

Until the reinforcements arrive, American bluejackets have been ordered landed from the supporting fleet to take up guard duty in Managua and other cities to relieve the

Boston's cold wave which established the season's lowest temperature—14 at 5 a. m. today—will be just off sea-ward some time tonight and tomorrow will be milder.

That was the official forecast of the Weather Bureau, which also reported that the lowest temperature today will be below 10 at 6 a. m. Cold weather was general throughout the State.

MAYOR IN MESSAGE URGES GREATER CITY

Promoting a reduction in the tax rate and possible pay raises for firemen and policemen, advocating extension of public control of the elevated railway and construction of new rapid transit lines recommended by the Metropolitan Planning Division, speaking again for "Greater City" and urging that Boston should "make more business."

3 BURNED, 7 OVERCOME 21 SAVED IN ROXBURY

Three men were burned one seriously, seven persons were overcome and 21 were rescued when fire of unknown origin swept through the two and one-half wooden dwellings at No. 75 Hawthorn street, Roxbury, today. A second alarm was turned in after the arrival of the first fire engine.

KILLS WIFE AND KIN AND SHOTS HIMSELF

Providence, Jan. 3 (A.P.)—William G. Laprade, twenty-five, shot and killed his wife, Marietta, twenty-five, and her half-brother, Herman E. White, twenty-three, a taxi driver in Mrs. Laprade's lodging house, after the arrival of the first fire engine.

THUGS HOLD UP AUTO OF EVERETT TRUST CO. ESCAPING WITH \$1,000

Three masked men, each holding two guns, held up a bank car of the Everett Trust Co. in Park avenue, Revere, today, and escaped with a little more than \$1,000 in collections.

A fourth man holding a side pistol, sat at the wheel of the thug car while the robbery was in progress. The armed thugs rose up back the back seat almost at the top of Park avenue hill, crowded the bank car into Dale street and against the curb—and then hopped out.

COOLIDGE SEES A YEAR OF PROSPERITY FOR U. S.

Washington, Jan. 3 (A.P.)—President Coolidge believes the United States has every reason to look for a prosperous year.

Remarks which have reached the White House, it was said, show that the President has no doubts as to the future of the country.

LINDBERGH REACHES HONDURAS CAPITAL

Tegucigalpa, Honduras, Jan. 3 (A.P.)—Col. Charles A. Lindbergh landed safely at the aviation field here from San Salvador at 1:55 p. m. C. S. T. He left San Salvador today at 11:45. Tegucigalpa is only about 25 miles from the Nicaraguan border in the vicinity of which the fighting is going on.

GORDON AND WIFE HELD IN \$25,000 BAIL IN HUGE HUB SHIP THEFT

HELD IN BIG THEFT
Mrs. Etta Eva Gordon is shown here with her unidentified friend and her pet dog. Mrs. Gordon's bail was fixed at \$25,000 today. She is held with her husband, George W. Gordon, her sisters and others in connection with thefts from the Eastern Steamship Lines, Ltd.

GEORGE W. GORDON

Charged with the larceny of \$47,500 from the Eastern Steamship Lines, Inc., the former auditor is alleged to have taken about \$150,000. He had only \$5 when arrested and police are seeking \$35,000 taken from a bank account.

MRS. ETTA EVA GORDON

Gordon's wife and her sister, Miss Zella Hessell, are being held on charges of having received some of the money Gordon is accused of stealing. Both have been unable to obtain bail. Gordon also is held in jail lacking bail.

MEYER FREEDMAN

Freedman is alleged to have received some of the money Gordon is charged with taking. It is charged that Freedman received \$10,000 "hush" money from Gordon. He also has been unable to obtain his release on bail.

\$35,000 HIDDEN FUNDS ARE SOUGHT

Bail of \$25,000 each in the case of George W. Gordon, charged with the larceny of \$47,500 from the Eastern Steamship Company, and his wife, Mrs. Etta Hessell Gordon, charged with receiving that amount, was imposed by Judge Michael Murray in Municipal Court today.

Miss Zella Hessell, sister of Mrs. Gordon, was held in \$15,000 as was Meyer Freedman, both charged with receiving \$45,000 of stolen money. Nicholas Tolstodt was also held in \$15,000 on the charge of receiving \$10,000. All pleaded not guilty and their cases were continued to January 10.

The arrests followed investigation by the Wolf Secret Service. The two women were placed in one dock, and Gordon and Hessell in the other. Tolstodt being on bail.

SAYS THEY HIG SUN IS GONE
Attorney Daniel V. McFadden, counsel for the Eastern Steamship Company, asked that bail of at least \$50,000 be imposed in the case of Mrs. Gordon.

"All the evidence we have," he said, "shows that she got most of the stolen money. The complaint does not begin to show the amount of money involved. It is considerable more."

Attorney Henry Barry for Zella Hessell asked the court to fix a bail of \$15,000 for her. He said she was a respectable business woman who had nothing to do with the theft. He said stores bought her furs and automobiles were false, and he blamed her brother Max for her present predicament.

MONEY ON DISPOS?
Barry said that three weeks ago Zella Hessell was complainant against her brother in Municipal court charging that Max threatened her.

Attorney McFadden said the government must expect to show that Zella Hessell is a sister of Zella.

"So far as we can learn," he said, "large sums of money stolen from the Eastern Steamship Company are in safe deposit vaults."

He asked the court to believe the

Ward 2, Charlestown, man was elected president of the Boston City Council at its first session today.

Money is there through Zella and Mrs. Gordon.

McFadden said that Gordon and his wife appear to be the principle in the case, and that Freedman obtained \$20,000 from Gordon. He charged that Freedman threatened to expose Gordon.

Attorney William E. Weeks is counsel for Mr. and Mrs. Gordon. Intensive search began today for \$25,000 of Gordon's personal funds which were withdrawn from a Boston bank. It is stated, the day after he was called before the officers of the company and informed of the discovery of the shortage.

When arrested Gordon had only \$5 in his pockets. The man charged with the larceny of thousands of dollars and involving it on the relative of his wife in the form of jewelry, furs and motor cars now contends he is innocent.

But shortly before his arrest, defense charge, he had \$35,000 in a Boston bank.

GREEN CHOSEN BOSTON CITY COUNCIL HEAD

Continued from First Page.

Thomas H. Green, Ward 2, Charlestown, was elected president of the Boston City Council at its first session today.

Green, elected overwhelmingly on the first ballot, was the administration's choice, although he is a Democrat. The vote was Green 17, Michael J. Ward 7, Herman L. Bush 6, and Joseph E. Dowd 1.

WARRIORS REMARKS
Councilor Dowling's fiery attack was aimed at alleged interference by the city administration with the Council's election for president and he was seconded by Councilor Parkman, Woburn, and Ward and Lynch, Democrats, all making their maiden remarks before a crowded public gallery and in the midst of a profusion of floral tributes presented to the new council.

Opposing Green, Councilor Dowling nominated Bush. Councilor Ward was nominated by Lynch of South Boston, while Dowd was nominated by Ward. Dowd disclaimed the nomination, stating he was "for Green all the way down the line."

Those who voted for Green were: Arnold, Republican; Bush, Republican; Devereux, Republican; Dowd, Republican; Fernald, Republican; Green, Republican; McFadden, Republican; Murray, Republican; O'Brien, Republican; Sullivan, Republican; Wilson, Republican.

Chancellor Dowling and Parkman voted for Bush. Lynch and Mahoney voted for Ward, and Ward voted for Dowd.

ADMINISTRATION ATTACKED
"Nearly every art and artifice that could be employed have been resorted to by a small and select clique of political values who hope to fasten their talons on the city treasury by taking full and complete control of the legislative branch of the government," declared Councilor Dowling, attacking the administration for alleged interference in the election for president.

"This election follows several weeks of planning, scheming, conniving, and every device of fraud and guile, and, even, demanding, that some of us, who we know we ought not to do so."

He warned his fellow Republicans in the Council against "taking

Former Governor Emory J. Sanborn, now collector of the port of Boston, picked pines in his yard today with the temperature below 20.

A step you will like to exert and which I know will be a decided detriment to the city.

"I was told only this morning that I was crazy to offer any resistance to this pretense of helping and perjury," he declared. "I was told that after I wasted my breath I would wake up and wonder what all the noise was about."

"I never was there such a determined effort to get the council under control, as at present. This election ought to be settled without frequent visits to automobiles and telephones as in the past."

"The administration is serving its pill with a Democratic coating to ease it down. A Democrat was chosen because they know that would best serve their purpose. But they were careful to look for a Democrat who would forget he is a Democrat as soon as conveniently possible."

The council first met following the election was to pass the usual temporary loan orders, consisting of \$22,000,000 in anticipation of taxes and \$1,000,000 for street and sewer improvements. There were between Democrats and eight Republicans in the new council. All were sworn in by the Mayor and Rev. Thomas J. MacCormack.

3 BURNED, 7 OVERCOME

Continued from First Page.

James Whitaker in whose room the fire broke out were overcome by fumes and required medical aid.

Firemen performed thrilling feats of rescue as they snared at the risk of their own lives through flames to lead by pairs and groups the shrieking and panic-stricken victims to the street.

Damage was estimated at \$10,000. The fire started on the top floor of No. 18 occupied by James Whitaker, his wife and ten children.

Mr. and Mrs. Eli De Long with their daughter Helen, 15 and son Albert, 16 live on the first and third floor of No. 18. Corrupting rooms were two boarders, Alfred Muller and Albert Hale. The family of Jacob Tint occupied the second floor.

While a detail of firefighters worked at rescuing the inmates scores of hose lines played upon the structure.

Four of the Whitaker family were removed to the street down ladder.

The De Long and Tint families were rescued through a wall of hot flames and choking smoke. They were given first aid by doctors and another by neighbors and eight Republicans in the new council. All were sworn in by the Mayor and Rev. Thomas J. MacCormack.

DOC COOK'S RELEASE HELD ILLEGAL; MUST SERVE TIME
Washington, Jan. 3 (A.P.)—Disproving predictions granted to Dr. Frederick A. Cook in Texas and Glen Murray in Nebraska, the Supreme Court held today that Federal courts have no authority to place prisoners on probation after they have begun sentences.

Dr. Cook, soldier of fortune and explorer, must remain in Leavenworth Prison, where he has served about two years of 14 years and nine months imposed for using the mails to defraud, in connection with oil promotions.

SOCIETY BOOTLEGGER JAILED FOR 5 MONTHS
Providence, Jan. 3 (A.P.)—Lillian Brown, alleged Newport society bootlegger, was sentenced to five months imprisonment and fined \$500 by Judge Charles C. Moore in U. S. court today. The charge was for statements made by Brown in connection with her claim for the return of seized liquor. His court, Christine C. Moore, declared in court that a man once senting himself as a prohibition agent from Boston had demanded "tribute" of Brown.

JAIL FOR MAN WHO SOLD LIQUOR TO BOY OF 11
Found guilty of selling liquor to an 11-year-old boy, Charles Sabat, of Nashua street, West End, was sentenced today to municipal court by Judge Murray, and then was fined \$100 and sentenced to two months in the House of Correction.

LOIE FULLER, DANCER, TO BE CREMATED
Paris, Jan. 3 (A.P.)—The ashes of Loie Fuller, American dancer and once confidante of Queen Marie of Rumania, will remain in her adopted country—France.

In accordance with her last request, she will be cremated tomorrow after simple services for her at the American Episcopal Church.

'LOVE SHERIFF' GETS RETRIAL

Continued from First Page.

Montpelier, Vt., Jan. 3 (A.P.)—Walter L. Fairbanks is to have a new trial. The supreme court today reversed a judgment of guilty, set aside his sentence of two to four years at hard labor in State Prison at Windsor, and remanded the case to Washington county court.

The reversal was in the only exception to the verdicts, that on conviction of a question asked Irma Stodoley in cross-examination as to whether she had received money from Dan Barry, her married son.

The decision was by a divided court in so far as the question of whether the conviction of this question had a harmful effect on the outcome.

The veteran sheriff was convicted of a statutory offense involving Miss Stodoley, 29, a state ward.

Washington, Jan. 3 (A.P.)—A charge that he had been threatened with prosecution if he did not testify to the government which in the criminal contempt proceedings against Harry F. Sinclair, W. J. Burns, and their assistants, was made today by Edward J. Kilwell, Jr., a juror in the Fair-Sinclair oil trial.

Kilwell was being cross-examined by George F. Hoover of Sinclair's counsel, in the court's investigation into the defense charges that James J. O'Leary, assistant district attorney had intimidated and threatened him.

He said that O'Leary told him just before he took the witness stand that Tuesday that affidavits that Kilwell already had told the prosecutor were untrue would be used against him if he did not testify they were true.

These affidavits dealt with activities of Burns detectives in shadowing the Fair-Sinclair jury for Sinclair.

POULTRY SHOW DRAWS CROWD

Feathered beauties from New England's prize poultry pens are strutting their stuff at Mechanics Hall today in a manner so proud that Daniel Webster would be pleasantly shocked if he could see what he started when he exhibited the first pen of Little Bantams on Boston Common in 1847.

Today the show has grown to second in importance in the United States, but first in size. More birds are exhibited here than in Madison Square Garden. Thousands of prize winners, hens, pigeons, turkeys and ravens arching a deliciously happy time filling the hall with music while an admiring public strolls by. Boston has always led in Bantams, Cochins and Hamburgs. Other breeds claiming their share of attention include the Columbian, bred by Richard G. Harwood, Southboro, president of the show.

Attorney Charles W. Tyler of Beverly is showing pouter Cochin valued at \$200 to \$300 each. Probably the most valuable bird in the show is a Blue Homer racing pigeon which is worth \$1000.

ing the club in name what it is in fact—"the fourth city."

The mayor disclosed that he is making a fight for less interference by the State in Boston affairs and that he is asking the Legislature to permit the mayor of Boston to appoint some of the members of the Finance Commission, Metropolitan District Commission, and other bodies.

Commission, Boston licensing board and Boston elevated public trustees. He sharply attacked the Finance Commission, calling it "a common sense" and said he is asking that the terms of the present members be cancelled.

A gasoline tax is favored for the purpose of providing funds for construction of traffic light signs without

adding to taxes the serious commuters and is suggested by the need of a special traffic court to handle automobile cases and thus relieve congestion in the municipal courts.

Again attacking the "jump sum" budget system of the school committee, he pointed out that, if that body had to frame its budget in detail and under scrutiny like all other city departments, its unexpended budget would have been less.

The address of Mayor Nichols followed the opening of the new City Council, the 22 members elected in November taking their seats, seven of them being newcomers.

The Mayor in giving an account of his record for the past two years said how he had increased the pay of the city laborers, mechanics and stationary engineers and firemen.

"I" CONTROL

"The municipal group consisting of the various forces of the police and fire departments should now be given serious consideration as the City of Boston is below the standard of compensation maintained by other large cities. It is desirable by all means to declare the tax rate this year at a figure lower than the thirty-fourth rate of last year, but if it is possible to reduce the rate to a figure additional maximum compensation to the uniformed members of the police and fire departments, I shall include a sum sufficient for this purpose in the coming municipal budget for 1928," the Mayor said.

In referring to the elevated situation the Mayor said in part: "My belief is that the elevated problem cannot be satisfactorily solved either through a law or by return to public ownership. Our transit situation requires a prompt solution of this question."

"In my opinion conditions in Boston require an extension of public control for a definite period. This period must be of sufficient length to insure the immediate construction of such improvements in the system as to provide adequate rapid transit for this community."

A workable proposal before the incoming Legislature supported by a recent opinion of the Supreme Judicial Court as to its constitutionality. The proposal, known as the Harriman Plan, presents a practical solution of the financial questions which, once settled, will move forward the consideration of Governor Square, Hunting ton avenue and other plans for rapid transit.

RAPS FIN. COM.

"I have therefore, directed the corporation council to examine the present and reorganization measures for the protection of the interests of the city and the framing of such amendments as may be found necessary or desirable. The bills in substance I favor and I have no doubt that in detail they will prove satisfactory."

The first step at the Finance Commission name early in his address, when referring to the limit, he said, "This month we again go to the Legislature for our limit and there is abundant evidence that the Finance Commission is about to display once more its ineffectual money."

Continuing he said, "The Finance Commission is a body under the mistaken notion that the law set them up to be a board of seals. In the days of the Old Colony the common mold found his seat in the stocks, and from time to time I have had to apply in modified form the ancient remedy. There is no situation in the law for this curious assembly, yet the Finance Commission is not even their in themselves."

"The Finance Commission, who do not understand this bewildered mental state, the activity of the Finance Commission is cause for amazement. The municipal advertising wrought from enchanted minds is, of course, amusing to us, but delivers outside and leads to a

A further reduction in the prevailing tax rate (24 per thousand) may be expected.

Possible increase in pay for the uniformed forces of the Fire and Police Departments.

Favors the Harriman Plan and the extension of Public Control for a definite period, in reference to the elevated problem.

Is alarmed at the increased school expenditures in comparison with city departmental outlays.

Urges the Finance Commission to cancel present body. Wants five new members appointed, three by Governor and two by Mayor.

The power of the State Commission on Civil Service to make appointments to his official family in a severe case, on local government. Will ask Legislature to pass law providing that a statement of reasons be given for all rejections. Wants them to apply to the Governor and Executive Council.

Declares that our method of handling automobile violations of the traffic law is expensive, clumsy and unfair.

Boston should invite more business. The very name Boston stands for stability and is a good asset.

Boston has never received from the Commonwealth the consideration which it ought to have. First of all, the city is entitled to a greater measure of freedom in its own affairs.

Will appeal again in the Legislature for a Greater Boston. Favors a gasoline tax.

Endorses a bridge or tunnel connection between Boston and East Boston.

Favors increase in fees and ferry tolls as a new source of revenue.

Will recommend to the Legislature the authorization of a \$3,000,000 loan for further housing improvements.

Construction of a new \$1,000,000 building at the Boston Shambles, Matignon.

More new street signs.

False and harmful public estimate of the city annexed by municipal neighbors.

TIME TO CHANGE

"It is time to seek a change and the year I will ask the Legislature to make a change in the present income commission and to provide for the appointment of a new commission, three of whom shall be named by the Governor and two by the Mayor."

The Mayor declared that the power of the State Commission on Civil Service to appoint to his official family is a severe check on local self-government.

He then stated that he intends to ask the Legislature for an act providing that a statement of reasons for the rejection of any appointment must be furnished by the commission to the Mayor, and the Mayor, having the right to appeal, may be questioned as to the reasons.

Woman Wins Fight in Air With Snake

Rangoon, India, Jan. 3 (U.S.A.)—What is believed to be the first fight in which a reptile was related in reports received here today from Mrs. Keith Miller, an English woman who is making a flight from England to Australia.

Shortly after leaving Rangoon Mrs. Miller found a snake in the cockpit of her two machine. The reptile began crawling towards Mrs. Miller and her pilot, Captain Lancaster.

The latter, being engaged with the controls, was unable to assist Mrs. Miller, who picked up some tools from a chest and, after a fierce struggle, cut the snake in two.

3 MASKED MEN 60 DIE AS COLD WAVE SWEEPS COUNTRY

Continued from First Page.

Harry Adams of Hildreth avenue, Everett, was driving his bank car Thomas Miller of Parkway, Chelsea, the guard, was riding in back with the box containing money collected at five stores during the morning.

The three men, a powerful coach, climbed rapidly up the hill back of the lighter again used by the bank car, and the men, who were dressed in dark clothing, and Adams and Miller raised their hands helplessly.

One of the "two" reached into the bank machine, scooped up the envelope and slipped over the seat and falling backwards into the rear section.

A second man ran to the other side of the bank car, snatched the envelope, leaped the car and ran to the rear of the car.

The third man, who was the driver, was caught by the two men, who were dressed in dark clothing, and Adams and Miller raised their hands helplessly.

Word of the holdup was broadcast by telephone immediately from the Everett police headquarters, Boston, and the alarm over its new telephone printer system to all its own divisions and also to Springfield, which has a printer connection.

The holdup men, who apparently had been waiting for the bank car, were dressed in dark clothing, and Adams and Miller raised their hands helplessly.

This money would have been the holiday receipts of the Eastern Massachusetts Street Railway for nearly three days.

The railway receipts usually are collected before the holdup stop was reached, the money had not been checked and they were asked to return for it later, after finishing their other rounds.

MAJOR PLANS NEW TAX CUT

Continued from Page 4.

ending with which traffic conditions which cannot now be considered without adding to the cost of local taxation.

After referring to the traffic situation, the Mayor added, "our method of handling automobile violations of the traffic law is expensive, clumsy and unfair. Many cities have special traffic courts and bureaus which deal effectively with a volume of petty cases and so now congest the dockets of our police courts."

The Mayor said the Council at its last session, he recommended for the adjustment of tolls on the East Boston ferries. "There is a deficit in this department of three quarters of a million dollars. The new tolls will but reduce this cost to the city to the extent of a quarter of a million, thus leaving a deficit in excess of half a million," he stated.

He further said that for the purpose of continuing the fare for persons and licenses he will present to the Legislature a bill providing for the tolls to be reduced by the Boston Licensing Board with his approval.

REVIEWERS WORK "Boston needs more rapid transit," declared the Mayor. He then viewed condition, at Governor square and stated that the recommendations of the Metropolitan Planning Board for further rapid transit extensions to serve Boston, Somerville and Cambridge were well considered. He also advocated a connection between East Boston and the mainland by a bridge tunnel.

The Mayor then told about the money loan received by his administration during the past two years which were not based on any plan but for the benefit of the city. He said that the loan was for the purpose of handling of snow removals and other important projects.

He reviewed his street work and accomplishments and also improvements and further development in the park system, and as the new playgrounds stand in the East.

A recommendation for a further loan of \$3,000,000 will be made to the Legislature for the purpose of the new City Hospital. Consideration of the matter will be made for a new building for the Eastern Sanatorium at Mattapan, he stated.

NEW HEALTH UNIT "During the period of the World War and just after the war, there was a large decrease in the population of the House of Correction, Deer Island, as well as at all penitentiaries. It then started upward until now it would appear from the figures of the last three years that conditions are back where they were and the average population at Deer Island would be between six and seven hundred," said the Mayor.

He then spoke of the health of the city, the action of another new George Robert White Health Unit, and then dwelt on the building of new schoolhouses, one in the West Boston district, three new buildings are to be high schools.

After a review of several other city departments and the work that they have accomplished during the first half of his administration, the Mayor closed by stating that a further appropriation of \$2,000,000 would be made to carry on the work of creating additional street space.

TO EXAMINE HECKSCHER IN FRIEDA HEMPEL SUIT

New York, Jan. 3 (A.P.)—August Heckscher, aged 64, philanthropist, must submit to examination before a trial of the suit brought against him by Frieda Hempel, opera singer, Supreme Court Justice Frankfurter ruled today. Miss Hempel's suit, the court ruled, may not be so much to enforce payment of \$40,000 a year for life as to enforce a principle.

The singer brought suit on the basis of an alleged contract, by which Heckscher agreed to pay her \$40,000 a year for the rest of her life on condition she make no statement that would take her out of New York City more than two years and that she agree to make for charity whatever requested by do so by Heckscher.

ANNUAL FUR SALE

And the season's most important fur sale, as it includes a most extraordinary purchase comprising an entire

Noted Fur Manufacturer's Stock

This enormous purchase consists of Seal-dyed Muskrat Fur Coats and thousands and thousands of fine quality Seal-dyed Muskrat skins. They are selected, full furred and prime, and it was the manufacturer's intention to put them into coats to sell for \$375 to \$395. We had these skins made up to our order into magnificent coats, which, in the opinion of several of New York's best style experts in fur, are the nearest to perfection in style and the greatest value of any Seal-dyed Muskrat coat made.

Think of it!
One Item!

of Seal-Dyed Muskrat
Coats at \$295.00 each!

All in one model with the new deep roll shawl collar and turned back cuffs of squirrel, probably the greatest showing of Seal-Dyed Muskrat coats in one model ever assembled in any fur department.

We believe it to be the most stylish coat of the season, and we think it will be equally so for the coming season. We have spent months perfecting it. We are advised by our Paris Office that Paquin, Worth,

Aviotti and Cheruit and others are featuring the deep roll shawl collar and slightly flared cuffs. It has been a phenomenal success and, of course, we had this purchase of Seal-Dyed Muskrat skins made up into coats, every one with a beautiful deep roll shawl collar and flared cuffs.

It is the opinion of several of New York's best style experts in fur that this seal-dyed muskrat coat at \$295.00 is the nearest to perfection in style and the greatest value of any seal-dyed muskrat coat made.
The skins are all carefully selected for and by our fur experts, including the fine squirrel used for collars and cuffs—the linings are confined to us and are of choice quality.
Note—the fineness of the full collar and wide turn-back cuffs.
Note—the graceful line of the body with full skirt overlapping in front.

In the White and Gold Room

One floor lower than the Spanish Galleries of Chandler & Co., party frocks for day and sundays are now budding forth in flower. The prettiest and best displayed collection of party frocks and accessories leading the way in delicate pastel shades. Black tulle is still in evidence and is very effective with a touch of rhinestones and a dash of silver. Delicate pastel green, purples and a lavender blue are also in evidence. It is not drapery mail claims their share of attention. Quite the moment of the season is a complete new line of evening frocks. There are a few startling frocks with long bead fringe, wonderfully shimmering for the evening. One is a white tulle affair which does not risk a brilliant effect. A strong feature in frocks for the afternoon is lace—very fine and of narrow lace on georgette, not wide sheer lace on tulle. You'll hardly expect to find these lovely things priced at only \$15.

I must say a word about hats, too. As I walked through the department new ones were continually arriving, all Spring and mid-season models. Velours are still popular, white ones and there a moire silk or satin makes its appearance. Trimmings may be anything from tiny glass flowers to inverted grosgrain capcanes. All priced at \$2.95.

Worn clothes, a business gift, or social butterfly tags made the rounds of the city's secondhand stores by Christmas Eve. And, at restaurants this one of the lovely boujany tags I found at Plaine's this week. Made of the heavy, quality material that's used for picnic blankets, pinks and pinks, coral and blue, and a few other combinations of colors, the boujany tags are made of wood and oak bark. These tags came in three pieces, jackets, necker and coat, and the tag would say \$15 for the outfit. If Santa didn't supply quite everything you wanted, why not get some of the Christmas coats or the Christmas boujany tags? Of course, when you're ready to double it, just throw aside the jacket, necker and coat, and let your friends be ready to keep it.

Another pleasant to the shopper for after-Christmas bargain are the fine and rayon sweats in a number of delicate colors, and sweats and slacks with flared, or the fine rayon bloomers for \$11 in a variety of daytime colors—black, gray, white, coral, black or navy. These have double flared-legs and are made of a soft, comfortable material. They are available in these sexy items on the street floor, Washington Street, at

THE Women Who Buy in Boston Asked for a Store Like This! . . .

MONTHS ago we knew that millions of women for whom Boston is the principal or occasional shopping center would welcome this most complete and convenient department store—and where and why they wanted it to be built.

We had an independent organization hire men and women to interview the wives and mothers in nearly two thousand representative homes in widely scattered neighborhoods and in various types of residential districts. We wanted public opinion. We wanted opinions representative of the purchasing public throughout the rich New England area. We wanted it to be spontaneous, impartial, trustworthy.

Here's how the women of New England confirmed the judgment of the business and industrial executives who have been planning this great enterprise for more than two years.

We, ourselves, were surprised to find that: **67 OUT OF EVERY 100** of their own accord named the Park Square district as the most convenient general location for such a department store as is proposed.

50 OUT OF EVERY 100 actually offered definite suggestions for improved department-store service.

75 OUT OF EVERY 100 said they would eagerly welcome and patronize such a store.

75 OUT OF EVERY 100 said they believed such a modernized department store would be so welcome to women in general that it would immediately enjoy a profitable volume of business.

Now to all these families—and to their neighbors throughout New England—we have announced The New England Department Store, Inc.—a finer department store planned expressly to serve the shopping convenience of the public in every modern way. We have, moreover, planned to house it magnificently in the world's largest building, and to follow the leadership of The New England Telephone and Telegraph Company and many other public service corporations and successful stores in sharing the ownership in the land, the building and the department store enterprise with the families we will serve.

In actual annual income Greater Boston is the nation's third richest metropolitan center. For several decades the annual business of Boston department stores has doubled every ten years. Yet, until now, there has been no important expansion of the downtown department store shopping district since the development of Tremont street started more than a generation ago. Meanwhile smaller shops have thrived tremendously by moving further out and suburban shopping centers have expanded astonishingly. Now big business has broken past the barrier of Boston Common.

The world will watch New England as the New England Building, Inc., rises to completion. Let us again summarize its outstanding advantages. It will be the largest building in the world. It will furnish more than 10 acres of floor space to be used as the sales-and-display headquarters of New England industries, more than 10 acres of floor space for the New England Department Store, Inc., a Stuart-St.-to-St. James-avenue arcade and twenty additional ground floor shops, and a tower for general offices.

Direct underground passageways to the Arlington-Berkeley station of the Boylston street subway. Surface car and bus lines, Worcester-Framingham inter-urban line at the door, and Back Bay railroad stations nearby.

Elevator service to two sub-basement parking spaces for the use of occupants and patrons. Down a ramp—park your car—take an elevator. Accommodations for 3,000 to 5,000 cars per day. Unusual warehouse and shipping facilities for quicker handling of merchandise and deliveries.

Modern heating, ventilating, and cooling plant for the whole building, with club quarters and personal service features for men and women patrons, and every department store service that the convenience of the public requires.

In 1926 fourteen of the department store organizations in the ownership of which the public shares, did a business of approximately \$650,000,000. Practically all of the important stores in the country which were originally family-owned now have public participation in some form. The New England Department Store, Inc., is planning to begin in the modern manner. From all New England came the founders—from all New England come the owners—and finally from all New England will come the occupants and customers to make this building the show window of New England industries and this store the headquarters for all the most modern shopping facilities and conveniences. For further information see our advertisement in the financial section of this newspaper, write to us or call at our offices. **THE NEW ENGLAND DEPARTMENT STORE, INC., Executive Offices, Third Floor, Metropolitan Building, 260 Tremont St., Boston. JUDGE RAPS DEATH IS PRICE OF BRAIN, SAYS BEAUTY AS SHE FORGIVES MATE DR. CARREL

Mrs. William A. McLean of Tremont street, Newton, was formed by Dr. Alexis Carrel, internationally known biologist of the Rockefeller Institute for Medical Research.

Addressing the third year betterment conference here, Dr. Carrel revealed results of his scientific experiment in keeping alive the cells of a human body and developing it into a new man.

According to the police, Mrs. McLean had been surprised several times during morning for beating her the arrest being made by Sergeant Mott and Officer King.

In court today the wife filed an acknowledgment of satisfaction and refused to prosecute, until, by the disgust of Inspector Richard J. Goodie, the police prosecutor, she complained that Mrs. McLean had caused the police, confidentially, trouble and that she should not be permitted to withdraw her case.

Judge William F. Ryan agreed but dismissed the case after warning the woman that she had come very near contempt of court.

BARB APPEAL "DRIVE" NEAR CAPITAL SCHOOLS

Washington, Jan. 3 (AP).—Circulation of Althea's propaganda in or near the school buildings of Washington will not be permitted, Dr. Frank W. Ballou, assistant director of the Federal Bureau of Investigation, has announced in a letter to the director of the Department of Education.

Dr. Ballou said he regarded the circulation of the propaganda as a membership campaign among parents of the city schools as being connected with an serious intention of election, but rather as a publicity scheme through which it hoped to obtain volunteers from "Barb" with peculiar views of mind.

COPLEY SOCIETY GREETED 1928 ARTISTICALLY, SAYS BETTY ALDEN

Open House Kept, Individually and Collectively, in the Studios of the Various Painters

WITH A DUE REGARD FOR THE AESTHETIC rather than the merely frivolous in New Year observance, the Copley Society, with Holker Abbott leading, turned its welcome to 1928 into strictly artistic channels. It kept "open house" in the Parkway Studios, from the front door to the upper story, literally.

And the Copley Society being what it is in the local scheme, sponsor for and promoter of occasions fittingly done against the background artistic, this open house was enormously successful.

WITH NICETY AND A FLOURISH OUTING, Holker Abbott and so pleasant to all concerned, Holker Abbott and his fellow society members do this act of semi-artistic occasion, and many and many a Copley Society member, now on the heights as to fame and achievements is housed within the Parkway Studios. So certain luminaries added to New Year joyousness with their own "at home" in a pleasantly-appointed studio as special features of the general open house.

TEA WAS STIPPED BY SPECIAL FRIENDS OF the artists in the studios provided over by Mary Linnet Hargrave, by Winthrop Pierce and Mr. Pierce, and Mrs. Elizabeth Watson. It was in fact a Copley Society gala, with F. Lyman Clark presiding at the entrance to the Parkway Studios.

Miss Kimball led the honors on the first floor, Mrs. Joseph Courtney on the second and Mrs. Leticia Rollins on the third. Certainly so fitting a welcome to 1928 as the Copley Society feels starts the little new year off with an atmospheric aura entirely lacking from some celebration.

THE ADVENT OF LITTLE Cecilia Asenstine Higginson into the Henry L. Higginson, Jr., family circle bestowed grandparent honors on that prominent figure in the sporting world, and famous M. F. H. "Alia" Higginson. The little

newcomer also brought great rejoicing to the heart of its great grandmother, that venerable Bostonian, Madame Higginson, widow of the lamented Major Henry Higginson, to whom Boston, musically speaking, owes such an immense debt of gratitude. I believe the baptismal "Cecilia Asenstine" carried on a Higginson family tradition in the pleasant possible way.

THE STORK'S ARRIVAL AND THE ANNUAL CHIMNEY DESCENT of Kris Kringle being almost coincidental to the two Higginson establishments, "Alia" Higginson, properly realizing his grandparental responsibilities, seized the opportunity to entertain an enormous family party at Middlesex Meadows in celebration of the double event. Hospitality at the Higginsons' South Lincoln place always are the quintessence of perfection, and the current house party follows precedent perfectly. William Fawcett was one of the group, and guests that gathered for Christmas stayed on into the New Year. It was no more "Friday to Monday."

MR. HIGGINSON AND HIS EVER-SO-CHARMING, GOLDEN-HAIRED spouse live pleasantly, with the magnificent country place as headquarters from which to rally forth higher and yon. Grouse shooting when it's the thing to shoot, had salmon fishing when the run picks beauties are at their sportive best, and ever hunting and racing, as becomes one of the country's most spectacular gentlemen riders, are Higginson interests. Now are the big city and its frivolities passed by by the two citizens of the world, specially as the present Mrs. Higginson has countless friends among sage luminaries, having been one herself not so very long ago.

IT TO BE RECORDED IN LETTERS OF GILT IS THE PATRONESS list for Thursday evening's lecture by Lowell Thomas to benefit the Junior Division, S. P. C. C. From its privileged "A's" to its gilded "W's" it throws off gleams from every name. Asiate persons having the lecture's success in mind have corralled for patronesses nearly a half thousand of those among the mighty whose hearts beat charitably toward a cause so extremely worthy. Mrs. George H. Asenstine and Mrs. Talbot Aldrich, Mrs. F. Letrop Ames, Mrs. Francis Henry Appleton, Jr., and Mrs. Schuyler Ames are sufficiently representative of the alphabet's and the list's beginning.

ELSEWHERE IS THE ALPHABET RESPLENDENT WITH SUCH NAMES AS MRS. GASPAR BACON (assistant worker for the Junior Division), Mrs. H. Wendell Roddick (spouse of the chairman of the Boston-Chicago Opera Committee and, of course, important locally), Mrs. Francis B. Crowninshield (ever on the alert to help unfortunate children), Mrs. Walter C. Baylies (whose name adorns ever so many sponsor lists), M. Grame Haughton (who mingles to best advantage interests in charities and the arts), Mrs. James J. Storrow (who, with her youthful husband, is carrying on the fine tradition for philanthropy instigated by the late lamented James J. Storrow), and ever, ever, to many others just as important and with just as warm an enthusiasm for good causes.

POINSETTIA RED AND LEAF GREEN, AND BALLOONS SPORTING EVERY GORGEOUS JEWEL COLOR, brilliantly decorated the Hotel Sheraton's Coffee Room for the large dinner Mr. and Mrs. Frederick W. How gave to welcome 1928 into the calendar. The How party was one of the largest but not the most elaborate. The Hows gave a dinner, with dancing, and so did Mr. and Mrs. Carl D. Smith, Mr. and Mrs. Benjamin W. Fredericks, Mr. and Mrs. Lynwood Chase, Mr. and Mrs. Royce Gillett.

SO MANY STRAWS IN THE wind blow strongly toward charities on the one hand, and toward certain matrons display to put over pet causes. An appeal from the Soldiers and Sailors' Club, dress in Payette street, asks for "remittance" to stock its "Humane Room" that is to reopen Monday next and to open every Monday thereafter until midsummer. "Humane" happily, knows no seasons, and there's never a "down" in its schedule. Mrs. Barrett Woodell, Mrs. Walter M. Pratt, Mrs. Rosema Frost Greiner, Mrs. Thomas E. Cully, Mrs. Richard D. Coo and Miss Margaret Blaine signed their names to the appeal, and ask that what numbers in individuality be sent to the club, No. 3 Payette street.

DANGER DAYS!
Sniffles
warning signals that resistance is low

NATURE has so many ways of warning you when the health of your child is in danger. But you'll recognize her signals in an instant: a fretful disposition, a tongue that is white, a finicky appetite, and the most common danger signal of them all—a tiny sniffing cold.

Well children do not sniffle! A sniffle is a sign that bodies are not strong enough to fight the germs which bring on colds. And bodies lacking strength, to fight off colds have the strength to fight the germs which bring disease!

The germs in the air know how to fight your boys and girls. Give your children the reserve energy to fight back!

Healthy bodies are safe bodies

Health comes from sunshine, fresh air, sound sleep, vigorous exercise, and above all—nourishing food. The foods your children eat are the building materials of which their growing bodies are made. Healthy bodies cannot be made of poor materials. Active, growing bodies need more than plenty of food! There are Danger Days ahead. They need the right kind of food. It must contain the vital elements for making strong bones, sound teeth, firm flesh, red blood, and worlds of energy for tomorrow. Who knows—tomorrow may be the Danger Day! If any single vital element is missing from the food of boys and girls, no amount of fresh air, exercise or sleep can supply it. What are these vital elements? Where can they be found? Every mother owes it to her children to—

May your pleasures be many
and *Golden* .. for 1928

What does "Happy New Year" mean?
Just this: Getting rid of old discom-
forts and finding new pleasures.

In the matter of cigarettes, that job
is easy for the man who makes his
first discovery of Old Golds.

For an investment of 15c, he'll ring
out the old, and ring in the new.

Gone will be the old throat discom-
fort from his smoking... the throat-
scratch and the tongue-burn.

Found will be a new measure of cig-
arette enjoyment.

A cigarette he can smoke in any num-
ber, day and night, with maximum
pleasure and no penalty.

By resolving to switch to this new-
type cigarette, he'll turn over a new
leaf...

... by turning up the best leaf that
ever went into a cigarette.

Turn Hair Dark With Sage Tea

By JEAN MACON

The old-time secret of turning hair dark with sage tea is being rediscovered by a new generation of women. It is a simple, natural, and effective method of restoring the natural color of the hair. Sage tea is made from the leaves of the sage plant, which is known for its hair-restoring properties. It is applied to the hair as a wash or as a tea. The result is a natural, dark color that lasts for weeks. This is a great alternative to artificial dyes, which can damage the hair and scalp. Sage tea is also good for the skin, and it can be used to treat dandruff and other scalp conditions. It is a natural and healthy way to keep your hair looking its best.

FURS

One Year to Pay

A Tremendous Stock Of High Class Furs

To Be Sold at Unheard Of Prices

Bear in mind that every coat we offer is made from the very finest of skins. On account of the very unreasonable weather we are forced to sacrifice our entire stock.

\$80,000 Worth of Raccoons
\$63,000 Worth of Hudson Seals

And every other kind of a good fur coat known to the trade is included in this sale. It will now you will see us before you purchase your coat elsewhere.

IMPORTANT ITEMS TO BEAR IN MIND WHEN BUYING A FUR COAT

- First: That Dolan & Son's Furs are always reliable, backed by their money-back guarantee.
- Second: That your coat is not made from burned skins, which makes it practically worthless after one season's wear.
- Third: That you are not buying a very cheap coat, camouflaging a reliable honest made coat. There are thousands of them.
- Fourth: That your raccoon is not made from red unprimed skins, stained (or tipped) to give it the appearance of a nice dark skinned coat.
- Fifth: That your muskrat coat is not one of those very full furred Canadian pelts with the leather as delicate as paper. In many cases these coats will not even hold the stitches when being repaired the following season.
- Sixth: That your Hudson Seal (Dyed Muskrat) is not made from burned skins, flat skins, Canadian skins, throughouts, etc., etc., etc.
- Seventh: That your opossum coat is not tipped to cover the red fur, and make it appear like a beautiful natural coat.

PRICES

GUARANTEE

Our money-back guarantee is given with every Dolan coat, and a \$50 reward in gold is offered to any person who can prove that Chas. P. Dolan & Son ever bought, sold or offered for sale one coat manufactured from burnt skins.

He describes the life of a submarine officer in the German navy, and how they were provided with hatches for escape.

By ALBERT HOLT, (Former German U-boat Officer)

In Friday's article I told you that I was not in a German submarine until I was given a chance to escape. I described the life of a submarine officer in the German navy, and how they were provided with hatches for escape.

Today I am going to tell you about the hatches for escape. I will describe the life of a submarine officer in the German navy, and how they were provided with hatches for escape. I will describe the life of a submarine officer in the German navy, and how they were provided with hatches for escape.

THEY COULD HAVE BEEN USED TO ESCAPE

I have just been in a submarine, and I have seen the hatches for escape. I will describe the life of a submarine officer in the German navy, and how they were provided with hatches for escape. I will describe the life of a submarine officer in the German navy, and how they were provided with hatches for escape.

New England Has Four Good Distance Men for Olympic Games

By JOE CASHMAN.
The long-distance runs of the last Olympic Games, the 5,000 and 10,000 meter races and the marathon run of the regulation distance did not net the United States very many points. One-third and one-fourth place were all that Uncle Sam could pick up in these events.

Of the two places earned, a New Englander, Clarence DeMar was accountable for one of them, a third place in the marathon and Johnny Knott, the former Penn. State runner, for the other. Knott took the fourth place in the 5,000 meter run.

CLAIM TWO NEW SWIMMING RECORDS

St. George's, Bermuda, Jan. 3 (AP)—Two world swimming records were claimed today by members of the St. George's Swimming Association. The records were for the 100 yard and 200 yard freestyle events.

It took a team of Bermuda men to give the American swimmer his first victory in the 100 yard event. The team consisted of four swimmers, who swam the 100 yard event in 1:12.4.

DE MAR IS THE CLASS

Practically every nation in the world has aimed, in the past four years, to break the supremacy of the Flying Finn in these events and the battle for the Broadway award has been a very close one.

Clarence DeMar, with his long history of wins over the world's best, has been the class in these events. He has won the 5,000 and 10,000 meter races and the marathon run of the regulation distance.

THE MEDITATIONS OF A WIFE

By HELEN ROWLAND

Men seem to be divided into two classes: those who look good to you, but are bad for you, the French party; and those who are hard to swallow, but good for you, the spinach and medicine.

A man usually loves a woman as long as she lets him "batter" things on her, but nothing makes him so indignant as to discover that any woman thinks she has a backbone.

A man's soul lies so close to his stomach, that when he looks blue or down-hearted, a woman never knows whether to offer him food, a kiss, philosophy, or blueberries of soul.

The bachelor has lost his "place in the sun." No man seems to be popular with the girls, these days, until one woman has set her seal of approval on him by marrying him.

The bitterest moment of a woman's life is that overcast one, in which she sighs, "Like just like all the rest!"

A woman's favorite sport is absorbing for things she knows she can't afford. A man's is doing things that he suspects he ought not to do.

"Milk of Magnesia" has been the U. S. Registered Trade Mark of the Charles H. Phillips Chemical Company, and its predecessor, Charles H. Phillips, since 1875.

Too Much ACID

Many people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. Correct it with an alkali. The best way, the quick, harmless and efficient way, is Phillips' Milk of Magnesia. It has remained for 50 years the standard with physicians. One spoonful in water neutralizes any excess acid in the stomach, and at once. The symptoms disappear in five minutes. You will never use other cathartics when you have this better method.

And you will never suffer from excess acid when you prove out this easy relief. Please do that for your own sake now. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acid. 2½¢ and 5¢ a bottle—any drugstore.

Cool-Loos by Ted Look

What this country needs is fewer built-up, congested, and more open spaces. When your car shows great spots on the wheels, give the wheels a good rubbing with Cool-Loos. The same applies to the rest of your car, then the drippings from your mistakes have made spots on it.

IF (With a curly to Kipling)

It seems a tremendous waste—when you consider there are thousands of your girls who haven't a stamp to send for that pamphlet on "How to Attract Men."

CRITICIZE GENTLY

BY LUCY LOWELL

WE ARE most critical of those things in others which we should most criticize in ourselves.

Our own pet little faults—weak enough to make over them, find excuses, "don't say I must get out in a certain way and show it off, I couldn't have it, after all it's just a bit of weakness."

But the same thing, the same sort of weakness in another would be "How odious!" we say. "How reprehensible!"

Why in the world don't we do something about it? We need it in the game of social intercourse, this tendency, which should be put out.

It is not well said that cannot bear criticism in others and Benjamin Franklin. Which is only a courtesy way of saying a general proposition.

I dined in a restaurant one evening with a party which was kept more or less in turmoil by the demands of a young woman guest. She sat the waiter here and there, for something else, all with the most beautiful air of doing things by royal right. That it disturbed everyone else didn't in the least trouble her, if she noted the "face" I pulled about her afterward. "She's a little fellow."

SMART SAYINGS OF CLEVER CHILDREN

Mother! Look at Child's Tongue if Sick, Cross, Feverish

Mother! Your child's tongue is cross and peevish. See if tongue is coated; this is a sure sign the little stomach, liver and bowels need a cleansing at once.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep or act naturally, has stomach-ache, diarrhoea, remember, a gentle liver and bowel cleansing should always be the first treatment given.

Nothing equals "California Fig Syrup" for children's ills; give a teaspoonful, and in a few hours the foul waste, sour bile and fermenting food which is clogging the bowels passes out of system.

Keep it handy in your house. It's given today saves a sick child tomorrow, but let the doctor. Ask your druggist for a bottle of "California Fig Syrup," then see that it is made by "The California Fig Syrup Company."
